## TYPES OF 'SUM-THING' AVAILABLE

### **The Bi-coloured string**

Two alternate colours on one string - giving an easy concept of odd and even numbers.

### **The Plain String**

Ten Beads of the same colour on one string - for addition, subtraction, multiplication, division or fractions. You will see that unlike the abacus, the beads only move when the child moves them.

### **The Number Bond String**

Made up as follows: 1 bead per string, 2 beads per string, 3 beads per string and so on. The colours will be in each of the rainbow colours starting with black for the first string through to purple on the last string in the pack.

### **Tens and Units String**

20 beads per string. Ten of one colour and ten of another to distinguish the Tens from the Units.

### **Stories of Five**

Stories of five up to nine. Two strings of each number per pack. Each number in a different colour. 5 beads per string, 6 beads per string and so on, up to 9.

### **The 100 bead string**

Ten Groups of Ten Beads, in each of the rainbow colours.

### **The Rainbow colour sequence is as follows:**

**Black, Grey, White, Pink, Red, Orange, Yellow, Green, Blue, Purple**

**Custom sets and samples available on request**
